May 19

phoenix

Phoenix engineering was established in 1991 as a specialized manufacturing unit for textile machinery parts & assemblies.

Phoenix was working at various rented locations before shifting to owned premises at Ramtekadi, Hadapsar in 2001. Additional adjacent manufacturing facility established in 2005 under Phoenix Textile Engineering Pvt Ltd.

Total 800 square meter (3 floors) manufacturing facility consists of in house facilities like –

- ▶ CNC Turning & Turn Mill – Mazak / Tsugami / GD Weiler
- ▶ CNC 4/3 Axis Machining – HAAS / Brother / AMS
- ▶ NC Double Disk Fine Grinding & Lapping – SKF / Tsugami / Lapmaster
- ▶ CNC 6/4 Axis Tool Grinding – Rollomatic / ANCA
- ▶ Induction Hardening & Brazing
- ▶ Laser Marking
- ▶ CNC Optical Measuring System

& Technical tie-up for facilities

- ▶ CNC Laser Cutting
- ▶ Investment Casting
- ▶ PVD Hard Coating (TiN / TiCrN / DLC)
- ▶ Vacuum Hardening & Cryogenic Treatment

Present manufacturing program includes –

- ▶ Winding Scissors & EYC Cutters for Auto Cone Winders
- ▶ Weft & Selvedge Blades & Assemblies for Water Jet / Air Jet / Rapier / Projectile Weaving Machines
- ▶ Yarn Suction Guns & Equipments for Synthetic Yarn Production & Processing
- ▶ Pneumatic Yarn Splicer for Textile / Industrial - Synthetic & Spun Yarn Production
- ▶ Precision machines parts for Yarn Production & Processing Machines
- ▶ Parts for OEM clients

Phoenix products are used by more than 600 clients throughout India & are exported to 40 countries around the world. More than 2 million parts are already been exported to OEM client from Europe.

Phoenix products are very well accepted by clients due to –

- ▶ Consistent Quality
- ▶ Timely Delivery
- ▶ Continual Innovation
- ▶ Strong Marketing & Technical Support Network

Phoenix products are manufactured under strict tolerances from the best possible materials & most advanced processes / machines. Production quantity are planned based on ordering patterns observed for several years, enabling faster deliveries & low inventory at customer. About 60% of Phoenix products are offered ex stock or with very short delivery period.

We at Phoenix believe in educating customer & sharing our knowledge & expertise in order to understand customer's requirement & offer most appropriate product at most competitive price.

By working closely with customer's requirements & implementing Innovative Ideas, Phoenix has introduced alternate materials & designs well accepted by clients worldwide –

- ▶ Brazed Carbide (Hard metal) Edge Scissor for Coarser / Blended Yarns – life time 50% more than steel scissor
- ▶ TiN PVD Coated Steel Scissor (Golden Yellow Color) for Wet Splicing application
- ▶ Micro Serrated loom cutters for tough , harsh or slippery yarns like Glass Fiber / Linen / Aramid / Monofilament yarns
- ▶ Special O Ring seal in Yarn Suction Gun Assembly, enabling dismantling & assembly several times without thread damage.

Manufacturing Program -

Winding Scissors for Auto Cone Winders

Weft & Selvedge Cutters & Assemblies

Yarn Suction Guns & Aspirators

Pneumatic Yarn Splicers

Mechanical Parts for Textile Machines

OEM Supply of Blades & Scissors
